

**Syllabus 2026**

# **.NET ML Development**

Prepared By:  
**TECH ENGINEER, Mohali**

This DotNet ML Development program is designed to provide complete practical knowledge of online and offline dev tools and strategies. Students will learn how to make Machine Learning Programms and build successful careers.

# PROGRAM IS BEST SUITED FOR

Entrepreneurs

College Students

Marketing Professionals

Job Seekers

## WHY YOU SHOULD LEARN (.NET ML Development)

Key Reasons to Learn ML Development:

- **Versatile and Cross-Platform:** With the modern, unified .NET, you can build many different types of applications, including web apps (ASP.NET Core), mobile apps (.NET MAUI), desktop software (WinForms, WPF), cloud-native services (Azure integration), games (Unity engine)
- **High Performance and Scalability:** .NET is known for being fast and efficient, consistently ranking well in performance benchmarks.
- **Active Community and Microsoft Support:** The platform is backed by Microsoft's significant investment and a large, active, and global open-source community.

You should learn .NET because it is a **versatile, high-performance, and widely adopted platform** that offers strong career opportunities and a comprehensive ecosystem supported by Microsoft and a large open-source community. It allows you to build a vast range of applications across different platforms.

## **Module 1 – Machine Learning Basics**

- AI vs ML
- ML Concepts

## **Module 2 – ML.NET Fundamentals**

- ML.NET Architecture
- Data Preparation
- Training Models

## **Module 3 – ML Models**

- Classification
- Regression
- Recommendation Systems

## **Module 4 – AI Integration**

- AI Models in C# Apps
- Predictive APIs

## **Project:**

Fake News Detection System

# Certificate

Upon completing this Certification course, you will receive a program completion certificate from Tech Engineer, Mohali (Pb). This certificate will testify to your skills as an expert in the completed course.
