

Syllabus 2026

Graphics Designing

Prepared By:
TECH ENGINEER, Mohali

This graphics design program is designed to provide complete practical knowledge of online & offline tools and strategies. Students will learn how to design banners, logos, promote brands, generate leads and build successful online careers.

WHY YOU SHOULD LEARN GRAPHICS DESIGNING

Here is why you should learn graphic design:

- **High Demand & Job Growth:** Graphic designers are essential in marketing, advertising, and digital industries, with specialized roles in high demand.
- **Flexibility & Remote Work:** The field offers excellent opportunities for freelancing, working from home, or starting your own agency.
- **Creative Freedom:** It provides an outlet for artistic expression, allowing you to turn complex ideas into visual masterpieces.
- **Diverse Career Paths:** Skills in graphic design open doors to UI/UX design, animation, branding, web design, and game design.
- **Low Barrier to Entry:** You don't need a traditional degree to start; practical skills and a strong portfolio are more valuable.
- **Strong Earning Potential:** Experienced designers can command comfortable, competitive salaries and bonuses.

Graphic design is no longer just for print; it is central to how businesses communicate in a digital world.

MONTH 1 – GRAPHICS FUNDAMENTALS & PHOTOSHOP BASICS

Week 1: Introduction to Graphic Design
