

Syllabus 2026

VIDEO Editing

Prepared By:
TECH ENGINEER, Mohali

This Video Editing program is designed to provide complete practical knowledge of editing software tools and strategies. Students will learn how to short clips, reels, ads., vlogs and build successful online careers.

WHY YOU SHOULD LEARN VIDEO EDITING

Here is why you should learn video editing:

- **Massive Career Opportunities & Income:** Video editors are in high demand across film, television, advertising, and digital marketing. It offers a strong career path from assistant to senior editor, with high potential for freelance, well-paid work.
- **Creative Control and Storytelling:** Editing is the art of shaping a narrative. It gives you the power to control the mood, pace, and emotional impact of your content, ensuring your vision is realized rather than relying on someone else.
- **Boost Social Media & Personal Branding:** Whether for YouTube, Instagram, or personal projects, video editing skills allow you to produce polished, engaging content that stands out, helping you grow followers and build a brand.
- **Versatile Skill for Various Roles:** Beyond professional editors, these skills are invaluable for marketers, content creators, and educators looking to convey complex ideas effectively.
- **Accessibility and Growth:** With modern software (like Premiere Pro, DaVinci Resolve, or mobile apps), it is easier than ever to learn. It is a future-proof skill, particularly with the integration of AI tools in the editing workflow.

By mastering this skill, you can turn simple, raw footage into compelling, professional, and memorable stories.

6 MONTHS VIDEO EDITING COURSE

Duration: 24 Weeks (6 Months)

Classes per Week: 3

Practice: Weekly Assignment + Monthly Mini Project

MONTH 1 – FOUNDATION (Weeks 1–4)
